

JEAN-FRANÇOIS STASSEN

Junior Web Developer

PROFILE

Intern @ Glooh Media.
Preceding my internship, I attended with great success a 7-Month Bootcamp @ Bencode Liège.
I am passionate about web technologies since my early twenties.

I eagerly cannot wait to start working in web programming with a great team.

I like to keep things fresh by learning new frameworks, new technologies; gaining and sharing experiences are my modo.

I had the chance to work on many projects at Bencode which included Wordpress, React, Laravel, Vue, Angular, Bootstrap, Materialize, Express, Strapi, GraphQL, Git, Github, Mysql & MongoDB.
