PROFILE

Currently attending a 7-Month Bootcamp @ Becode Liège, I am passionate about web technologies since my early twenties.

I eagerly cannot wait to start working in web programming with a great team.

I like to keep things fresh by learning new frameworks, new technologies; gaining and sharing experiences are my modo.

I had the chance to work on many projects at Becode which included Wordpress, React, Laravel, Vue, Angular, Bootstrap, Materialize, Express, Strapi, Graphql, Git, Github, Mysql & Mongodb.

SKILLS

HTML 5	DOCKER
CSS3	WORDPRESS
